As City Manager of the 10th largest city in the US, Dave reports directly to the mayor. He is focused on eight near-term priorities for San José including such pressing issues as creating housing and preventing homelessness, developing a smart and sustainable city and creating vibrant, safe and inclusive neighborhood. Following Dave's talk, mingle with Dave and City staff members to discuss local government career paths. Both technical and non-technical career paths will be featured.

Real world problem solving to better your community.
