

2022 Summer Undergraduate Fellows

During the Summer of 2022, over 400 Stanford students engaged in immersive service opportunities with organizations located around the world. See a map (<http://cardinalquarterfellows.cardinalservice.org>) illustrating the organizations our fellows worked with during the summer.

The students listed below were supported or co-sponsored by the Haas Center for Public Service's Undergraduate Fellowships Program.

Advancing Gender Equity Fellows

The Advancing Gender Equity Fellowship is a joint program with the Women's Community Center and enables students to learn about gender, diversity, and social justice through a summer practicum with a nonprofit organization or government agency addressing social, political, or economic issues affecting women.

- **Crystal Chen, '24 (Human Biology); Women's Cancer Resource Organization, Berkeley, CA.** Crystal interned at Women's Cancer Resource Center in Berkeley, a nonprofit organization that provides financial, emotional, and practical support and resources for women and non-binary people with cancer or are cancer survivors. She compiled local social support resources for clients, connected clients to existing WCRC programs, and helped reimagine volunteer recruitment, engagement, and development.
- **Lora Supandi, '23 (International Relations); Remote.** Lora Supandi interned for the Ostara Initiative, which is the umbrella organization that unites the Minnesota Prison Doula Project and Alabama Birth Project. Despite being in separate states with different laws, the three organizations march toward the same goal: to ensure reproductive rights and adequate care for incarcerated individuals, especially childbearing mothers. The Ostara Initiative is run by women and justice-impacted individuals, such as prison doulas and women who have experienced childbirth in prison. Lora assisted the Ostara Initiative in writing grants, conducting research, and pursuing further legislative steps to implement policy.

African Service Fellows

The African Service Fellowship is a joint program with the Center for African Studies supporting students' work on social and economic issues in Africa.

- **Temiloluwa Adeyemo, '23 (Human Biology); Asido Foundation, Ibadan, Oyo State, Nigeria.** Temiloluwa interned at Asido Foundation, a mental health research and advocacy nonprofit that looks to advance the mental wellness of Nigerians. Temi authored a literature review on Community Resilience in Nigeria during COVID-19, while working as a guest host on Mindset, the organization's radio program which spreads awareness and eliminates stigma about mental health.
- **Meghan Jin, '24 (Human Biology); PATH, Remote.** Meghan interned at PATH, a global health nonprofit that aims to accelerate health equity through various partnerships with public institutions,

grassroots groups, and local communities. She worked with the team in Uganda to advance self-testing for HIV and COVID-19 in the region, including conducting research on COVID-19 knowledge among key populations.

- **Abhinav Kumar, '24 (Biomedical Computation); HERI Kenya, Ukunda, Kenya (Remote).** Abhi worked with HERI Kenya, a nonprofit organization that promotes environmental and community health in Kenya through education, research, and advocacy for policy change. His primary project was to design, conduct, and analyze a KAP (Knowledge, Attitudes, and Practices) survey on waste management and mosquito-borne viruses. His analysis will help inform future educational interventions and clean up efforts at HERI Kenya.
- **Malisha Lutchmeea, '25 (Undeclared); EducationUSA, Port Louis, Mauritius.** Malisha interned at EducationUSA through the U.S embassy in Mauritius where she worked on an education access project to support low-income students in her home country. She guided students applying to U.S universities through workshops on the SAT test-taking strategies, essay-writing, and the general application process and her work culminated in an application guide that will be used by prospective applicants.
- **Iddah Mlauzi, '25 (Undeclared); Uncommon.org, Harare, Zimbabwe.** Iddah interned at Uncommon.org, a nonprofit organization in Zimbabwe that is dedicated to helping unemployed, young adults in low-income communities launch their careers in the technology industry. She led workshops on ethics in technology and facilitation best practices and helped reimagine the fundraising model.
- **Jackline Wambua, '25 (Undeclared); Association of the Physically Disabled of Kenya, Nairobi, Kenya.** Jackline interned at the Association for the Physically Disabled of Kenya a non-profit organization she admires for its commitment to improving the lives of persons with disabilities through advocating for an inclusive society, provision of rehabilitation services, economical empowerment, and advocating for the rights of persons with disability. Jackline provided logistical support and supported the media personnel in capturing stories and updating content on their social media platforms.

Alexander Tung Memorial Fellows

Through the Alexander Tung Memorial Fellowship, students can explore the use of science and technology for the benefit of society at large.

- **Anudeep Golla, '24 (Computer Science); Accelerated Cure Project, Broomfield, CO.** Anudeep interned at Accelerated Cure Project (ACP), a nonprofit organization whose mission is to accelerate efforts toward a cure for multiple sclerosis by rapidly advancing research that determines its causes and mechanisms. He researched the most valuable features of peer-powered research networks and collected data regarding the most pressing research community needs of MS patients, and set out to implement these components into the iConquerMS research platform.
- **Hiran Dewar, '23 (Biomedical Computation); Accountability Counsel, San Francisco, CA.** Hiran interned at Accountability Counsel, a nonprofit that works on human rights through gaining accountability for harm perpetrated by projects financed by international development banks. She

created an environmental sensor that monitors air quality without internet or electricity for communities to easily document air pollution caused by development projects.

Andrea Naomi Leiderman Fellow

The Andrea Naomi Leiderman Fellowship supports undergraduate students conducting research related to underserved youth in California.

- **Alysson Farris, '23 (Public Policy); SPARK Lab, Stanford, CA.** Alysson interned for Spark Lab, which focuses on early childhood education, on their partnership with San Francisco United School District. She worked on processing and documentation of new assessment and enrollment data.

Bay Area Climate Justice Fellowships with PCJ in the Bay

Fellows work with a partner in the Partnership for Climate Justice in the Bay initiative to help build climate resilience and an equitable transition to clean energy in the Bay Area, with an environmental justice lens.

- **Veronica Ayala, '22 (Science, Technology, and Society); Communities for a Better Environment, Richmond, CA.** Veronica drafted a policy brief regarding the different policies enacted to prevent fossil fuel infrastructure development and to phase out existing fossil fuel infrastructure.
- **Bryana Gastelum '24 (Undeclared); Communities for a Better Environment, Richmond, CA.** Bryana created a presentation discussing the history of public and private funds between Chevron and the City of Richmond. The objective of this presentation was to build a foundation for discussions involving Just Transition funds in Richmond.
- **Bless Romo '22 (Earth Systems); North Fair Oaks Community Alliance, North Fair Oaks, CA.** Bless edited NFOCA's website and created fliers for the organization's workshops for the community. Bless also drafted various grant proposals.
- **Zunarah Ahmad '23 (Earth Systems): Climate Resilient Communities, Palo Alto, CA.**
- **Vel Senthil '25 (Undeclared); Thrive Alliance, Redwood City, CA.** Vel helped with planning and organizing a Climate Summit that Thrive Alliance will be holding in the fall of 2022. Vel helped design the organization's webpage and banner that advertised for the Summit.

Black Diaspora Fellow

The Black Diaspora Fellowship affords students the opportunity to serve in organizations that work on issues central to achieving justice and equity for Black communities.

- **Hodan Farah, '23 (Biology); Muslim Wellness Foundation, Remote.** Hodan interned at the Muslim Wellness Foundation (MWF), a Black Muslim organization that works to de-stigmatize mental health issues in Muslim communities, and provide resources, knowledge and more to Muslim communities regarding mental health and wellness. She did web development for the organization and in her final project, created a Central Brochure for their website and donors which was a comprehensive

story of the MWF including origin story, values, MWF rebrand, founder, donor, and fellow spotlights, and more.

Chicanx/Latinx Communities Fellow

The Chicanx/Latinx Communities Fellowship enables students to engage with Chicanx/Latinx communities and apply their experience, academic pursuits, and leadership to address issues of race, social justice, equity, inclusion, and artistic expressive history in movements for social change centered on the Chicanx/Latinx experience.

- **Myrka Cruz, '25 (Undeclared); Freedom for Immigrants, Remote.** Myrka interned at Freedom for Immigrants, a nonprofit organization devoted to abolishing immigration detention and monitoring abuses through a national hotline. She updated the COVID-19 map, drafted a report on detention centers in Ohio, and helped launch FFI's National Detention Facility Resource Directory, which had been put on hold for several years.

Civic Fellows

- **Hannah Griswold, '25 (Undeclared); Mending Matters, San Diego, CA.** Hannah interned for Mending Matters, a nonprofit organization that provides mental health support services to students in California schools. She created a curriculum to educate 9th and 10th grade students on well-being and mental health, with the intention of preventing mental health struggles.
- **Michael Murray, '25 (Undeclared); Rosedale Freedom Project, Rosedale, MS.** Michael served as a Teacher-Advisor with the Rosedale Freedom Project, a nonprofit summer school program for middle and high school students living in the Mississippi Delta. He taught 6th and 7th grade math and reading, and led the students on field trips to Civil Rights museums and sites.
- **Matthew Yekell, '25 (Undeclared); Covenant Community Capital, Houston, TX.** Matthew interned at Covenant Community Capital, a nonprofit organization focused on expanding rates of home ownership in Houston, Texas. Matthew helped the organization reduce the time spent on repetitive tasks through the use of automation.

CS+Social Good Summer Fellows

CS+Social Good Fellows work with organizations using technology to address social issues.

- **Elias Applebaum, '25 (Undeclared); CareerVillage.org, Remote.** Elias interned at CareerVillage.org, a non-profit organization that democratizes access to career information and advice by connecting students with professionals to answer career questions on CareerVillage.org, building a massive open-access reference source that career-oriented students can access anytime, anywhere. Working with the dev team, he implemented search engine optimization (SEO) objectives that will help attract more students and professionals to the CareerVillage community and created a plan for team members to more effectively integrate machine learning into the “tags” functionality of the website.

- **Isaac Bevers, '23 (Symbolic Systems); humanID, Remote.** Isaac interned at humanID, a start-up that provides a modular login system that can be integrated with other platforms that protects user data and makes it prohibitively costly to create bot accounts. He developed a dashboard that provides a live estimate of bot activity for top trends on Twitter.
- **Karina Chen, '25 (Undeclared); San Jose Mayor's Office of Technology and Innovation, San Jose, CA*.** Karina interned at the San Jose Mayor's Office of Technology and Innovation, which leverages the ingenuity of Silicon Valley to tackle city issues and improve residents' livelihoods. She primarily worked on a digital inclusion project and also contributed to projects relating to traffic safety and public health.

*Position co-sponsored by Stanford in Government

- **Viraj Mehta, '25 (Computer Science); humanID, Remote.** Viraj interned at humanID: Foundation for a Human Internet, a nonprofit cybersecurity organization that aims to create safer online communities by preventing bot attacks and fake accounts. Viraj worked with their software development team to enhance humanID's developer console.
- **Savannah Payne, '22 (Symbolic Systems); Edstruments, Redwood City, CA.** Savannah interned at Edstruments, a organization that provides budgeting and finance software for the unique needs of education, nonprofit, and public sector leaders. She designed application pages for their new purchasing module and designed and implemented an updated website.
- **Gayatri Devi Tarcar, '24 (Undeclared); Accountability Counsel, Remote.** Gayatri Devi interned at Accountability Counsel, a non-profit creating and storing a comprehensive database of community complaints filed with independent accountability mechanisms about the impacts of internationally financed projects. She worked on updating the database with complaint information from the Inter-American Development Bank.
- **Naomi Tefera, '24 (Symbolic Systems); humanID, Remote.** Naomi interned at humanID, an open source nonprofit organization that is working to build a safer internet by providing an anonymous, bot-resistant authentication solution for apps and websites. As a Product Intern, she worked alongside a team where she monitored and improved the SEO performance of the organization's website.
- **Alexander Worley, '25 (Undeclared); Every.org, San Francisco, CA.** Alexander interned at Every.org, a nonprofit organization that provides accessible giving infrastructure for a more generous world. He learned JavaScript, TypeScript, HTML, React, Git, and Vim, and he used these tools to make an example giving application which uses Every.org's API.

Donald Kennedy Public Service Fellows

Through the Donald Kennedy Public Service Fellowship, students develop and implement innovative service projects in collaboration with communities to address identified needs.

- **Faith Ajanaku, '25 (Undeclared); Riley's Way Foundation, Brooklyn, NY.** Faith interned at Riley's Way Foundation, a nonprofit that empowers young leaders to use kindness and empathy to create

meaningful connections and positive change through the following programs: Call For Kindness, Youth Leadership Retreat, and Riley's Way Council and Program. She led the mental health cohort, helped develop the alumni network, consulted young leaders, and created detailed year long guidelines and programming for the foundation.

- **Grace Barket, '23 (Public Policy); Dreamcatchers, Palo Alto, CA.** Grace interned with Dreamcatchers in Palo Alto, a nonprofit organization that provides academic and community support to middle schoolers in the Palo Alto Unified School District that come from low income backgrounds, with the aim of promoting equity in education. Grace helped orchestrate community partnerships with Dreamcatchers for the coming school year, assisted in redesigning the program's structure, and supported the Dreamcatchers summer program through various tasks.
- **Jose Davila, '24 (Undeclared); Youth Alliance For Housing (YAH), New York, NY.** Jose worked as a member of the Youth Alliance For Housing, a community organization founded on the belief that housing justice is a human right. Throughout their work, YAH stresses the intersectionality of housing issues and recognizes that housing justice is racial justice and is youth justice. Jose worked with the team to develop a website to publish various digital and print projects YAH has made since their founding, while also serving in graphic design for the organization.
- **Chrysanthe Frangos, '25 (Undeclared); Alaska Wildlife Conservation Center, Girdwood, AK.** Chrysanthe worked as a Naturalist Fellow at the Alaska Wildlife Conservation Center, a sanctuary dedicated to preserving Alaska's wildlife through conservation, education, research, and quality animal care. She developed a free, educational scavenger hunt that takes guests on a self-guided tour throughout the Center.
- **Catherine Horkay, '23 (Computer Science); Center for RISC at University of Chicago, Chicago, IL.** Catherine interned at the University of Chicago's Center for RISC - an innovation lab for radical social change. She assisted with the mutual aid project for Chicago's community utility bills and was also mentored on web development.
- **Sriya Mantena, '25 (Computer Science - Biocomputation); Stanford Children's Teen Van, Palo Alto, CA.** Sriya interned with the Stanford Children's Hospital Teen Van, a mobile clinic offering free health services to uninsured and underinsured youth in the San Francisco Bay Area. She created a survey to understand the barriers to applying for health insurance and worked to design a digital platform to empower under-resourced teens to navigate the complex Medi-Cal application process.
- **Joseph Moser, '24 (Computer Science); NYC Mesh, New York, NY.** Joseph spent his summer at NYC Mesh, a volunteer-run nonprofit which provides high-speed internet at low cost in underserved areas. Among other things, he was solely responsible for installing, maintaining, and repairing internet service for a 600-apartment low-income housing complex.
- **Dyllen Nellis, '24 (Human Centered Design and Engineering), RISC, Chicago, IL.** Dyllen interned at Radical Innovation for Social Change (RISC), a social innovation lab headed by Steven Levitt, the author of Freakonomics, that generates and implements unorthodox solutions to the world's biggest problems. She researched massive open online courses for an education project and provided user interface feedback for a mutual aid platform.

- **Anna-Katharina Preidl, '24 (Undeclared); Apples to Zucchini Cooking School, Santa Barbara, CA.** Anna-Katharina interned at Apples to Zucchini Cooking School, a non-profit organization in Santa Barbara, where she worked as a chef educator at their summer camp, teaching local children how to prepare delicious, nutritious, affordable meals made from seasonal and local ingredients. Moreover, she wrote a food science program that will be implemented at Santa Barbara and Goleta schools in January 2023.
- **Erick Rocha, '25 (Undeclared); Building Healthy Communities, Salinas, CA.** Erick interned at Building Healthy Communities East Salinas, a community-based organizations that is working to support community engagement and leadership for a healthy, safe, and thriving East Salinas and the wider Salinas Valley. He led his own project that examined under-analyzed aspects of Salinas history along with several high schoolers, facilitated staff meetings, and used previous experience to help facilitate a youth group.

Earth Systems Public Service Summer Fellows

Offered jointly with the Earth Systems Program, the Earth Systems Public Service Summer Fellowship enables students to apply what they have learned through interdisciplinary environmental studies to summer internship experiences.

- **Diana Baszucki, '24 (Undeclared); Florence Fang Community Farm, San Francisco, CA.** Diana interned at Florence Fang Community Farm, a nonprofit organization dedicated to advancing food security and food sovereignty for residents of the Bayview Neighborhood in San Francisco. She worked with the youth program there to develop lesson plans and curriculum goals for the students.
- **Alan Cuevas, '23 (Earth Systems); Bayview-Hunter's Point Community Advocates, San Francisco, CA.** Alan interned at Bayview-Hunter's Point Community Advocates, a grassroots organization working to address environmental justice issues in the vulnerable Bayview-Hunter's Point neighborhoods through community organizing, education, and direct services. He used EPA and naval documents to compile over 300 hazardous sites in the neighborhood and created a map to guide a multi-year toxic survey of the sites.
- **Lily Laughann, '23 (Earth Systems); Kounkuey Design Initiative, Los Angeles, CA.** Lily interned at Kounkuey Design Initiative, a non-profit design firm composed of urban planners, landscape architects, and community organizers that partners with under-resourced communities in Los Angeles on the design of spaces in the public sphere. Lily was involved in the research and writing of a report on gender equity in public transport as well as community engagement + observational studies for two proposed public park projects.

Education Achievement Fellows

Education Achievement Fellows engage in a summer practicum at education-focused nonprofits, foundations, or government agencies as part of a cohort in Boulder, Colorado.

- **Sachin Allums, '24 (Symbolic Systems); "I Have a Dream" Foundation, Boulder, CO.** Sachin worked at both an Elementary school and a community center planning and leading field trips and educational games for 5th-7th grade students. While in Colorado, Sachin conducted budget

analyses, attended home visits, and supported students at a college and career conference named DreamUP.

- **Ryan Esquivel, '25 (Undeclared); "I Have a Dream" Foundation, Boulder, CO.** Ryan interned at I Have a Dream Foundation-Boulder, a nonprofit organization that provides individualized social, emotional, and academic support to young people from under-resourced communities from 1st grade all the way through college. He served as a tutor for high school students working in summer credit recovery to help them be on track for graduation.
- **Lance Lee, '23 (Public Policy); ELPASO, Lafayette, CO.** Lance spent the summer with ELPASO in Colorado, a non profit organization with the goal of reducing the academic achievement gap between the hispanic and white community and creating change that will have lasting effects through many generations. He aided in the creation, conduction, and dispersion of surveys to gather information for future policy endeavors.
- **Adan Marquez, '25 (Undeclared); "I Have a Dream" Foundation, Boulder, CO.** Adan was a fellow at "I Have a Dream" Foundation, Boulder County, a nonprofit organization that helps under-resourced students from elementary until their post-secondary education; it not only provides educational services like tutoring and career advising but social and emotional support by balancing academic and social programming. Adan provided Math, Physics, and History tutoring for High School students, while serving as a mentor and planning programs for Middle School students, and facilitating a computer proficiency class for Spanish-speaking parents.
- **Shelby Whinery, '23 (Human Biology); "I Have a Dream" Foundation, Boulder, CO.** Shelby spent the summer interning with the "I Have a Dream" Foundation of Boulder County, a nonprofit organization that provides educational and instrumental support opportunities to low-income youth. During her internship, she supported first graders reading and math comprehension in a bilingual classroom, used data to analyze trends in student beliefs about academics and belonging, and greatly enjoyed field trip days with the Dreamers.

Education and Youth Development Fellows

The Education and Youth Development Fellowship supports programs addressing academic and social needs of underserved youth.

- **Mahlet Ayele, '25 (Undeclared); Council for Opportunity in Education, Washington, D.C.** Mahlet interned at the Council for Opportunity in Education, a non-profit organization dedicated to furthering educational opportunity for low-income first-generation students. She created a "How to be a Successful Intern" pamphlet for future interns at the organization, as well as writing a memo on the 2nd Chance Pell Grant, which allows incarcerated students to seek post-secondary educational programs.
- **Nora Brew, '24 (Undeclared); LifeMoves, San Jose, CA.** Nora interned at LifeMoves, an organization that provides comprehensive services to Bay Area homeless. She worked within the education department at LifeMoves, helping to put on academic summer programming for the kids at shelter locations in San Jose.

- **Ninette Calderon, '25 (Management Science and Engineering); UrbanTXT: teens in technology, Los Angeles, CA.** Ninette interned at Urban Txt: Teens in Technology, a nonprofit organization that serves to empower black and brown boys in South Central, Los Angeles. She served as a youth development and software development coach to help four students create a software and hardware product that addresses a community issue.
- **Shirley Frame, '24 (Psychology); Wise Readers to Leaders, Los Angeles, CA.** Shirley taught a classroom of K-1 students at Wise Readers to Leaders, a non-profit organization that partners with schools and community centers in LA to offer summer literacy programs for kids. As a teacher, Shirley designed and delivered curriculum to her class focusing on reading, writing, art, STEM projects, and social and emotional learning.
- **Kelly Harvell, '24 (Bioengineering); LifeMoves, Menlo Park, CA.** Kelly was a Children Service Coordinator intern at Haven Family House, a shelter in the LifeMoves network that provides free, temporary housing for families in the Bay Area. She was a camp counselor for the site's children's summer camp, assisted with children's and teen's club for the residents of Haven, and helped on site as needed.
- **Zoey Hu, '24 (Feminist, Gender, and Sexuality Studies); Making the Right Connections, Inc., Los Angeles, CA.** Zoey was a TA for the summer school program at St. Vincent School in Los Angeles, CA. She helped implement curricula provided by Making the Right Connections, Inc, a nonprofit organization that focuses on gang prevention.
- **Abigail Maldonado, '25 (Undeclared); Wise Readers to Leaders, Los Angeles, CA.** Abigail interned as a literacy educator for Wise Readers to Leaders Los Angeles, a nonprofit flagship literacy program dedicated to closing the literacy achievement gap for nearly 500 K-8th grade students from Title 1 schools in the San Fernando Valley, Koreatown, Echo Park, Inglewood, and Watts. Through curriculum and enrichment activities she planned and led, Abigail, supported her classroom of 16 4th and 5th-grade scholars in building their literacy and leadership skills that will set them up for success in their future careers.
- **Ryan McJannet, '25 (Undeclared); California Education Partners, San Francisco, CA.** Ryan worked with California Education Partners, a nonprofit that facilitates relationships between school district practitioners and researchers to improve educational practices and outcomes. He developed a set of tweets to raise awareness about up and coming educational research and looked at survey data to develop recommendations for improving meeting format and practitioner-researcher relationships.
- **Skyley Mitchell, '25 (Undeclared); Making the Right Connections, Los Angeles, CA.** Skyley interned in Los Angeles for 9 weeks working under the organization "Making the Right Connections" which works with students who at high risk of working with gang and she worked at the partner school Saint Vincent Catholic School. She worked as a TA for the children and worked with administrators to prepare for the coming school year.
- **Daniel Motteses, '25 (Undeclared); Teens Exploring Technology, Los Angeles, CA.** Daniel interned at Teens Exploring Technology (TXT), a nonprofit organization that teaches underprivileged black and brown high schoolers how to code, utilize important UI/UX skills, start a company, and gain

important life skills. He coached a group of four high schoolers, from a cohort of 40, on how to build an app. Their app facilitated trading for collectors, and utilized blockchain technologies.

- **Buddy Noorlander, '24 (Undeclared); Greentrike, Tacoma, WA.** Buddy interned with Greentrike, a nonprofit organization that provides education and advocacy for children. He helped plan and run their annual summer camp.
- **Jerri Roper, '23 (Psychology); All Five School, Menlo Park, CA.** Jerri Anna interned at All Five School, a socioeconomically diverse pre-kindergarten program that focuses on play as a mechanism of learning. Throughout the internship, she was able to aid children in conflict resolution, confidence, and exploration.
- **Madeleine Salem, '24 (Symbolic Systems); Institute for Applied Behavior Analysis, Oakland, CA.** Madeleine served with the Institute for Applied Behavior Analysis, a social services organization that provides advanced and high quality services to people challenged by developmental disabilities. She helped develop and execute clinical, individualized, and data-driven behavior intervention plans for children with developmental disabilities within the organization.
- **Yara Sevilla, '23 (Computer Science); LifeMoves, Menlo Park, CA.** Yara interned with LifeMoves to run a summer camp for young students experiencing homelessness. She gave these young kids an opportunity to learn STEM related projects and practice reading over the summer.
- **Maraki Solomon, '25 (Undeclared); mEducation Alliance, Arlington, VA.** Maraki interned at mEducation Alliance, a nonprofit organization that implements effective Education Technology resources and practices globally. She created a 5 week STEAM curriculum and delivered trainings to middle and high school refugees.
- **Laura Villalobos, '23 (Human Biology); DREAM Program at Mt. San Antonio Community College, Walnut, CA.** Laura interned at the DREAM Program at Mt. San Antonio Community College, a student center organization that supports undocumented students pursuing higher education. Laura focused on mental health advocacy, highlighting various struggles undocumented students must endure.

Empowering Asian/Asian American Communities Fellows

Empowering Asian/Asian American Communities Fellows work on issues related to Asian and/or Asian American community empowerment.

- **Alexandra Huynh, '25 (Undeclared); Asian American Liberation Network, Sacramento, CA.** Alexandra interned at the Asian American Liberation Network, where she organized a community suicide prevention training as well as community listening circles for California's Children and Youth Behavioral Health Initiative. She also led a research project on help-seeking behaviors in Asian American youth in Sacramento, which will inform a mental health needs assessment.
- **Jonathan Laxamana, '24 (Undeclared); PAWIS, San Jose, CA.** Jonathan interned at PAWIS, a grassroots organization that aims to serve Filipino workers and immigrants by offering education and outreach training to fight for their rights and welfare. He engaged in community outreach to

local care homes and fast-food places, aiding PAWIS with information gathering and community/solidarity building with other organizations in Santa Clara County.

- **Maya Salameh, '22 (Psychology); ACCESS (Arab Community Center for Economic and Social Services), Remote.** Maya interned at ACCESS, a nonprofit organization that provides legal and social services to Arab Americans. She created a series of community accessible deliverables on her thesis research on Arab American mental health for the organization.

Environmental and Policy Internships in California

Through a partnership between the Woods Institute for the Environment, Stanford in Government, and the Haas Center, students pursue state environmental policy internships at various agencies in Sacramento.

- **Lizzie Avila, '23 (Earth Systems); San Francisco Department of the Environment, San Francisco, CA.** Lizzie was a fellow with the SF Department of the Environment, a local government department that works on many aspects of the environment in San Francisco. They used GIS to research use of toxic waste disposal programs by zip code, informing future outreach campaigns to be more equitable and consider environmental justice.
- **Janica Mendillo, '22 (Earth Systems); Office of Planning and Research/Strategic Growth Council, Remote.** Janica interned at the California Strategic Growth Council, a state agency that manages grant programs to build out healthy, thriving, and resilient communities for all. She created a map to visualize the Regional Climate Collaborative program's public engagement across the State using registration data from public workshops to understand where interest and engagement is coming from and inform future targeted outreach.
- **Alexis Perez, '23 (Symbolic Systems); CA Water Resources Control Board, Sacramento, CA.** Alexis interned at the Office of Information Management and Analysis within the California Water Resources Control Board, an office that helps implement water policies as well as make sense of California's water data. Alexis worked on a data science project looking at the drinking water needs of CA tribal communities.
- **Olivia Szabo, '23 (Urban Studies); Strategic Growth Council, Sacramento, CA.** Olivia interned at California's Strategic Growth Council, a cabinet level committee that coordinates and works collaboratively with public agencies, communities, and stakeholders to achieve sustainability, equity, economic prosperity, and quality of life for all Californians. She was placed on the Climate Change Research Program team and contributed to a synthesis report of the program's funded research projects, and coordinated researchers and community members to speak at a program-focused council meeting.
- **Miriam Wallstrom, '23 (Political Science); California Air Resources Board, Sacramento, CA.** Miriam interned at the California Air Resources Board Office of Environmental Justice, the California agency that monitors and regulates air quality and pollutants throughout the state. She interviewed non-profit leaders and wrote blog posts about their projects, coordinated meetings for the Environmental Justice Advisory Committee, and helped edit a grant application.

- **Emily Zhao, '25 (Undeclared); California Ocean Protection Council, Remote.** Emily interned at California Ocean Protection Council, a state agency working to maintain healthy, resilient, and productive coastal and ocean ecosystems for the benefit of current and future generations in CA. She has worked as part of the biodiversity and tribal affairs teams.

Haas Center Cardinal Quarter Fellows

The Haas Center Cardinal Quarter Fellowships provide funding to students engaging in full-time service opportunities around the world.

- **Uchenna Akanno, '25 (Human Biology); Human Rights Watch Student Task Force, Los Angeles, CA.** Uchenna interned at Human Rights Watch, an internationally recognized organization that investigates and reports on abuses happening in all corners of the world. He conducted genocide research regarding the intentional oppression of the Uyghurs in China and collaborated with the LAUSD school district administration on installing solar panels at his local high school to combat climate change.
- **Lucas Bosman, '24 (Management Science & Engineering); Impact Experience, Oakland, CA.** Lucas interned at Impact Experience, a nonprofit organization focused on promoting DEI in corporations & institutions, as well as decarbonizing the financial sector. He worked on an initiative to decarbonize bank and retirement accounts in addition to other financial analysis.
- **Emma Buday, '24 (International Relations); Energy Peace Partners, Remote.** Emma worked as a remote research intern for Energy Peace Partners, an organization which works to leverage climate and finance solutions to promote peace in fragile regions around the world. She completed reports on energy policy for several volatile countries, to be submitted to the International Renewable Energy Credit organization, so that EPP may begin development in those countries.
- **Anthony Bui, '23 (Classics); Access2Justice Family Law Facilitators, San Mateo, CA.** Anthony interned with the San Mateo Superior Court's Family Law Facilitators' Office, a nonprofit self-help center that provides legal services to low-income families in matters of family and civil law. He provided guidance on legal and court proceedings, helped litigants complete documents, and provided translation assistance.
- **Sam Catania, '24 (Symbolic Systems); Every.org, San Francisco, CA.** Sam interned at Every.org, a 501(c)(3) working to create an accessible giving infrastructure for other nonprofits. He worked on their engineering team to build out the web application, adding features to promote giving transparency and make it easier to start fundraisers.
- **Tanner Christensen, '24 (Psychology); New York City Commission on Human Rights, New York, NY.** Tanner interned at the New York City Commission on Human Rights in their Law Enforcement Bureau, a government agency charged with enforcing the NYC Human Rights Law which protects New Yorkers from discrimination in employment, housing, and public accommodations. At the Commission, he worked with staff attorneys to write complaints, conduct intakes, and create a best practices memorandum for lawyers working with LGBTGNCI individuals in custody.

- **Kyia Cole, '25 (Comparative Studies in Race & Ethnicity); Restore Justice, Chicago, IL.** Kyia interned at Restore Justice, a nonprofit organization that focuses on finding alternative solutions to avoid long-term interaction of at-risk youth. While Kyia took on many roles, she spent the majority of her time working on “Know-More” pieces that focused on issues that incarcerated people face for the Restore Justice website.
- **Raquel Contreras, '25 (Undeclared); Restore Justice, Chicago, IL.** Raquel interned at Restore Justice, an advocacy organization dedicated to rolling back punitive legislation that affects incarcerated individuals in Illinois. In a team of interns, she composed memos to the Illinois Department of Corrections (IDOC) in an effort to expose existing barriers that impede families of incarcerated individuals from freely visiting their loved ones, and to draw light to current policies that infringe on the rights of incarcerated individuals.
- **Scarleth Contreras, '23 (Philosophy and History); Al Otro Lado, Los Angeles, CA.** Scarleth interned with Al Otro Lado, a non-profit organization that assists asylum seekers and refugees at the Mexico-U.S. border. Currently, Al Otro Lado provides legal and social services to those currently waiting at the border. She assisted in humanitarian parole applications for migrants otherwise unable to enter the United States.
- **Lorenzo Del Rosario, '24 (Undeclared); Florence Fang Community Farm, San Francisco, CA.** Lorenzo interned at the Florence Fang Community Farm, San Francisco's largest and second most productive urban farm, improving access to food for many underserved families. Over the summer, he conducted dozens of interviews to understand the social and environmental impact of the farm in the Bayview-Hunters Point Neighborhood and also volunteered regularly at the farm's STEM learning program for children.
- **Nathalie del Valle, '25 (Undeclared); SIRUM, Palo Alto, CA.** Nathalie interned at SIRUM, a nonprofit tech startup that matches surplus medications to people who need them. She worked mainly with a partner clinic, GoodPill, which is the largest donation-based pharmacy in the United States. She helped create efficiencies in the partner pharmacy's processes by organizing logistics, finding new vendors for supplies, and researching new marketing tactics.
- **Sterling Dintersmith, '23 (Human Biology); Robinia Institute, Wingina, VA.** Sterling interned at the Robinia Institute, an organization in rural Virginia that promotes regenerative agriculture education. She helped to manage the daily operations of a 400 acre sustainable farm, and to facilitate educational group visits.
- **Sophie Donnellan, '25 (Undeclared); Smart Surfaces Coalition, Remote.** Sophie was a media and communications intern at the Smart Surfaces Coalition, a nonprofit organization that focuses on deployment of city-wide cooling strategies through green, porous, and reflective surfaces, trees, and solar PV (together Smart Surfaces). Sophie managed and grew the Coalition's social media platforms, developed and executed multiple media strategies for report releases, created a database of journalist contacts, and wrote a report on the effect of climate change on tourism in six key American cities.
- **Ellie Fajer, '23 (Earth Systems and Biology); The Farmlink Project, Remote.** Ellie was a summer fellow with The Farmlink Project, a student-led nonprofit working to alleviate hunger and eliminate

food waste by connecting surplus produce from farms to food banks across the country. She supported their fundraising team by writing grants, leading corporate relations efforts, and expanding their external education programming.

- **William Fang, '25 (Undeclared); Recidiviz, San Francisco, CA.** Will interned at Recidiviz, a nonprofit organization that partners with state criminal justice agencies to reduce incarceration in a data-driven way. He worked on surfacing punitive officers to provide a framework for reducing returns to prison from supervision.
- **Enrique Flores, '24 (Political Science); Immigration Equality, New York, NY.** Enrique interned at Immigration Equality, a legal aid non-profit that helps LGBTQ+ immigrants seek asylum in the US, this past summer. He worked on a country condition project relating to El Salvador, translating an asylum defensive guide into Spanish and French, and worked on immigrant in-take forms, among various other administrative tasks.
- **Joey Friedman, '23 (Comparative Studies in Race and Ethnicity); Tidelines Institute, Gustavus, AK.** Joey interned at Tidelines Institute, an educational organization focused on climate science and climate change stationed in remote Southeast Alaska. He learned about and taught students skills needed for subsistence living like gardening/composting, fishing/processing meat, foraging, woodworking, metal forging, and much more.
- **Isabel Gormley, '24 (Political Science); Santa Clara County Public Defenders' Office, San Jose, CA.** Isabel clerked at the Santa Clara Public Defenders' Office, where she had the opportunity to work alongside a deputy public defender to provide legal representation to low-income citizens accused of serious felonies. She created a case analytics information system and utilized this system to work on over 15 separate felony cases, many of which she was able to personally engage with and observe in court.
- **Alexia Gutierrez Franco, '24 (Undeclared); Immigration Institute of the Bay Area, Redwood City, CA.** Alexia interned at the Immigration Institute of the Bay Area, a nonprofit organization that provides low-cost legal services to help immigrants, refugees, and their families join and contribute to the community. As the Workshop Fellow, Alexia organized and facilitated bi-weekly workshops for clients applying for DACA status or U.S. Citizenship.
- **Andrew Hong, '25 (Undeclared); More Equitable Democracy, Seattle, WA.** Andrew interned at More Equitable Democracy, a racial justice non-profit organization seeking to reform our democracy systems to better enable communities of color to elect candidates of their choice. He helped with data collection and analysis as well as communication strategy for a ballot measure campaign.
- **Adam Hussain, '25 (Political Science); Five Keys, Remote.** Adam interned with Five Keys, an organization providing prisoner re-entry services and connecting formerly incarcerated individuals with resources that help them find jobs and housing. He helped create a best practices white paper that the organization used to improve their services.
- **Isha Kalia, '25 (Undeclared); Department of Interior, Washington, D.C.** Isha worked for the Federal Asian Pacific American Council within the U.S. Department of Interior. She worked on increasing AANHPI representation within the federal government and environmental justice issues.

- **Joshua King, '23 (Earth Systems); The KLC Journal, Wichita, KS.** Joshua was a fellow at The Journal, a magazine published by the Kansas Leadership Center focusing on community leadership in Kansas. For this fellowship, he primarily worked on an article about barriers to sustainable agriculture transitions.
- **Rodolph Lapointe, '24 (Undeclared); Partners In Health, Boston, MA.** Rodolph interned at Partners In Health (PIH), a nonprofit organization that has made it their mission to combat injustice by providing quality medical care to those that need it the most. He managed a web and mobile application survey project at 50 different locations, designing and leading training to data collectors and analyzing results.
- **Maixee Lee, '24 (Undeclared); Asibey Consulting, New York, NY.** Maixee interned at Asibey Consulting, a firm that provides social impact consulting to non-profits and philanthropic foundations. Maixee created guides for various social media platforms such as Pinterest and TikTok as well as conducted digital listening on topics like youth organizing and leadership transitions in non-profits.
- **Jackie Lu, '23 (Human Biology); Food as Medicine Collaborative, San Francisco, CA.** Jackie interned at the Food as Medicine Collaborative, a multi-sector coalition in San Francisco that operates in low-cost clinics to provide high-quality fruits/vegetables to at-risk patients in conjunction with their medical care. She completed hands-on volunteering packing and handing out groceries, and worked directly with the Chinese-American population to generate culturally competent nutritional resources and patient surveys in mandarin.
- **Arundathi Nair, '24 (Undeclared); Los Angeles Public Defender's Office, Los Angeles, CA.** Arundathi interned at the LA County Public Defender's Office, which works to provide legal defense for indigent children and adults accused of crimes. She worked on projects to aid attorneys working on cases, including watching body-worn footage, summarizing discovery, and doing legal research.
- **Ali Palm, '24 (Earth Systems); Winthrop National Fish Hatchery, Winthrop, WA.** Ali interned at the Winthrop National Fish Hatchery in Winthrop, Washington that works in spawning and rearing multiple species of salmon to be released into the Columbia River each year, and partners with NOAA to complete research at the hatchery and in the field. She worked in fish culture and research, as well as fish and redd surveys and eDNA collection in the field.
- **Anoushka Rao, '24 (Human Biology); UCSF Health and Human Rights Institute, San Francisco, CA.** Anoushka interned at UCSF's Health and Human Rights Initiative and the Bridges Clinic, two related organizations that aim to provide pro bono forensic medical evaluations and primary care, respectively, to asylum seekers in the Bay Area. As an HHRI intern, she was actively involved in clinic workflow, obtaining consent from patients, documenting physical scars during evaluations, creating an escalation plan for suicidal or medically critical clients, and conducting follow up calls with patients to identify social needs. In the Bridges Clinic, also affiliated with UCSF, she worked with the physicians to help identify medical and mental health needs of asylum seekers in clinic, and developed a primary online infrastructure to organize patient data and social needs assessments.

- **Megan Rogers, '23 (Human Biology); SIRUM, Palo Alto, CA.** Meg worked as a summer fellow for SIRUM, a nonprofit organization that helps health facilities and pharmacies donate unused medicine to a network of community partners that dispense to low-income patients. She conducted research on drug pricing to help the organization pursue potential partnerships with healthcare payers across the country.
- **Karla Roman, '24 (Psychology); Immigration Institute of the Bay Area, Redwood City, CA.** Karla interned at the Immigration Institute of the Bay Area, a nonprofit organization dedicated to providing affordable immigration services around the Bay. She worked with u visa applicants to prepare documents necessary for their applications.
- **Danny Sallis, '25 (Undeclared); The Center for Election Science, Remote.** Danny interned at the Center for Election Science, a nonprofit that studies voting methods (such as ranked-choice voting and approval voting) and in particular advocated for the implementation of approval voting. He analyzed survey data related to recent elections and helped build a tool to analyze what makes ballot measures successful.
- **Sofia Scekcic, '22 (Public Policy); Restore Justice, Chicago, IL.** Sofia interned at the Restore Justice Foundation, a nonprofit organization that conducts research, develops policy solutions, and trains advocates to roll back the “tough on crime” policies that lead to extreme prison sentences for youth in Illinois. She conducted research and wrote reports on topics ranging from brain development and resentencing, to solitary confinement, to sentencing laws in Illinois and other states.
- **Avinash Thakkar, '25 (Undeclared); U.S. Attorney's Office, Southern District of New York, New York, NY.** Avinash interned at the United States Attorney's Office, Southern District of New York this summer. As a Criminal Division intern, he assisted federal prosecutors with their investigatory and trial work.
- **Skylar Volman, '25 (Sociology); Alameda County Public Defender's Office, Oakland, CA.** Skylar interned with the Alameda County Public Defender's Office in Oakland, California. She reviewed evidence for attorneys prior to trial, completed legal research on issues such as eyewitness identification and police department policies, and observed jury trials
- **Kelly Wang, '25 (Undeclared); Asibey Consulting, Brooklyn, NY.** Kelly interned at Asibey Consulting, a communications/marketing-focused social impact consulting firm that helps mission-driven organizations engage both existing and new audiences in their work. She worked with several different clients on a variety of different projects aimed at boosting support and engagement, such as creating social media guides and recommendations for clients, assisting with client email/ad campaigns, and researching information to include in client reports.
- **Nicholas Welch, '23 (East Asian Studies); The Committee for Human Rights in North Korea, Remote.** Nicholas interned at the Committee for Human Rights in North Korea (HRNK), a non-partisan, non-profit organization that was founded in 2001 to research the human rights situation in North Korea. Its goals include the closure of North Korea's prison camps, opening of the country's borders, and improvements in access to information, food, and quality of life for all North Korean citizens. It works toward these goals through collaboration with scholars, North Korean escapees,

satellite imagery experts, and other leaders to publish original research, hold events, and share its findings with universities, the general public, the US government, and the UN.

- **Valencia Xu, '25 (Undeclared); Santa Clara County Public Defenders' Office, San Jose, CA.** Valencia interned at the Santa Clara County Public Defenders' Office, a government office that provides legal services and representation to clients accused of crimes who do not have the means to hire private representation. She assisted attorneys at the office with reviewing and analyzing discovery, assisting in trial preparation, and shadowing attorneys in court.

Indigenous Communities Fellows

Indigenous Communities Fellows participate in summer internships working with nonprofit, government, or tribal organizations on social, political, and/or economic issues impacting American Indian, Alaska Native, Native Hawaiian, and Indigenous Pacific Island communities.

- **Tierra Baird, '23 (Earth Systems); Mahpiya Luta Food Sovereignty, Pine Ridge, SD.** Tierra worked as an intern/gardener for the Mahpiya Luta Food Sovereignty, a food sovereignty initiative focused on working to connect young people to food; building this relationship sustains Lakota cultural foods knowledge, cares for the environment, and grows a healthier collaborating with local organizations, growers, and educators, and reclaiming food systems. During their time with the organization, Tierra carried out garden and greenhouse responsibilities as well as creating Lakxotiyapi children's books on traditional plants for the Lakota immersion school as a summer project.
- **Ryne Reger, '24 (Economics); Lakota Funds, Kyle, SD.** Ryne interned for Lakota Funds, a nonprofit on the Pine Ridge Reservation to promote economic sustainability for the community through business loans, technical assistance, and wealth building education for families and businesses. He helped manage the Construction Internship Program which connected 10 young adults to local contractors in order to increase employability and increase housing, researched how much appraisers working in tribal communities and organized a site visit to connect relevant people, and supported the organization in a variety of other projects.

International Public Service Fellows

Through the International Public Service Fellowship, students engage in international service that connects with academic learning and helps them explore career interests.

- **Manny Faria, '23 (Psychology); The United Nations, Geneva, Switzerland.** Manny interned in the United Nations in Geneva, Switzerland, working to create healthcare strategy proposals for countries in Asia, Europe, Latin America, and the Middle East.
- **Landon Swopes, '24 (Undeclared); Kalinago Institute for Global Resilience and Regeneration, Kalinago Territory, Dominica.** Landon interned at the Kalinago Institute for Global Resilience and Regeneration, a nonprofit organization in Dominica focused on providing services to the Kalinago people and influence carbon-neutral communities in Dominica. Landon built their website to help them better communicate their goals with the community, cataloged their indigenous medicine, and started a community health worker program to educate the community on chronic conditions affecting them.

Public Interest Law Fellows

Public Interest Law fellows have the opportunity to spend a quarter working full time in the field of public interest law in the United States.

- **Kelsey Carido, '23 (International Relations); Innovation Law Lab, Remote.** Kelsey interned at Innovation Law Lab, a legal nonprofit organization that focuses on research, advocacy, and litigation to support migrants and asylum seekers. She was a part of the legal team and worked on a report on ICE detention, followed up with clients, and brainstormed ways to incorporate design thinking with immigration legal services.
- **Phil Chabaneix, '25 (Undeclared); Los Angeles LGBT Center, Immigration Law Project, Los Angeles, CA.** Phil interned at the Immigration Law Project at the Los Angeles LGBT Center, the world's largest nonprofit organization that provides services to LGBTQIA+ people. Phil served 39 clients requesting asylum in the United States and protection from deportation by drafting and filing legal briefs for Immigration Court, drafting requests to the Office of the Principal Legal Advisor at the Department of Homeland Security, and helping clients prepare for court hearings.
- **Sarina Deb, '23 (Political Science); California Appellate Project, San Francisco, CA.** At California Appellate Project, Sarina was part of a team responsible for summarizing over 80 appellate opening briefs for the CAP website and monthly publication. Sarina also worked on summaries of over 20 law review articles, summarizing emerging critical scholarship in the area of capital punishment, including lethal injection, gender and the death penalty, race and the death penalty, and the diminished mental capacity defense. Sarina also updated the death penalty index and added over 50 expert witnesses to the CAP database for attorneys to peruse.
- **Parker Grove, '23 (International Relations); New York Lawyers for the Public Interest, New York, NY.** Parker interned at New York Lawyers for the Public Interest (NYLPI), which offers legal services to under-represented New Yorkers on a series of issues. She worked on the organization's environmental justice and policy teams, where she spearheaded research on New York's annual waste and incineration and provided key edits that would protect disadvantaged communities under a monumental new law.
- **Sreya Guha, '22 (Symbolic Systems); Santa Clara Public Defender's Office, San Jose, CA.** Sreya interned at the Public Defender's Office in Santa Clara County. She worked on reviewing body camera footage for cases, assisting in jury selection and organizing evidence.
- **Lauryn Johnson, '23 (International Relations); Transgender Law Center, Oakland, CA.** Lauryn interned with the Transgender Law Center (TLC), the largest national trans-led organization advocating for a world in which all people are free to define themselves and their futures. Lauryn responded to inquiries through the Legal Information Helpdesk and completed independent research projects for the TLC legal database.
- **Diego Leibman, '24 (Undeclared); Mexican American Legal Defense and Education Fund, San Antonio, TX.** Diego interned at MALDEF, a Latino legal civil rights organization dedicated to protecting the rights of Latinos across the country. Diego supported staff attorneys by conducting legal research, drafting memoranda, and reviewing documents in preparation for depositions.

- **Gema Quetzal, '23 (Comparative Studies in Race and Ethnicity); Lawyers Committee for Civil Rights, San Francisco, CA.** Gema worked on translation, interpretation, administrative support, and communication for the immigrant justice program which focus on providing pro bono support to asylum seekers.
- **Ana Elena Smith, '24 (Comparative Studies in Race and Ethnicity); Kids in Need of Defense, New York, NY.** Ana Elena interned at Kids in Need of Defense, a nonprofit organization providing legal immigration services to unaccompanied minor children in the United States and abroad. She supported the teams lawyers and paralegals by completing country research reports, drafting intake memos, and providing various types of client support.

Reflective Practice and Social Change Fellows

Reflective Practice and Social Change Fellows explore personal values, beliefs, and meaning in one's life to better understand motivations to commit to service and social change.

- **WeiHuan Chen, '23 (Human Biology); Stockton Scholars, Stockton, CA.** Chen completed his Cardinal Quarter experience at Stockton Scholars, an educational nonprofit organization that assists first-generation low-income students to pursue higher education. Along with one workmate, Chen created the alumni program for Stockton Scholars, which will establish a community to support Stockton Scholars alumni as they transition from college to the workforce.
- **Niles Egan, '24 (Undeclared); Urban Rural Action, Los Angeles, CA.** Niles interned at Urban Rural Action, a nonprofit organization that brings together Americans across geographic and political divides to build connections and respond to local issues in their communities. He helped lead a workshop for having constructive dialogues and produced a grant report describing the results of a year-long initiative in Maryland.
- **Sawyer Lucas-Griffin, 2024 (Undeclared); SIRUM, Palo Alto, CA.** Sawyer was a summer fellow at SIRUM, a nonprofit that redistributes surplus medications to people who need them. She identified and trialed components of a robot to automate the medication labelling process at Good Pill, SIRUM's partner organization, helped find a trailer for Good Pill could use to dispose of expired medications, and researched methods of patient outreach to further SIRUM's goals of increasing access to medications for low income communities.
- **Gabriella Lundy, '24 (Undeclared); Bring Me a Book Foundation, Remote.** Gabriella interned at Bring Me a Book, a nonprofit focused on increasing children's literacy by fostering book access, choice, and joy. She supported Bring Me a Book by compiling a Funding Toolkit for community partners, co-creating a four-part podcast series, and leading a book distribution project for Afghan refugee children.
- **Sherry Mestan, '23 (Human Biology); University of California Health Milk Bank, San Diego, CA.** Sherry interned at the University of California Health Milk Bank, a nonprofit milk bank that supplies pasteurized donor breast milk to neonatal intensive care units and families across California and the Southwest to support the nutrition and development of high-risk infants. She worked with hospitals

and families to supply donor milk, redesigned the outpatient ordering process, and assisted a policy proposal for improved donor milk insurance coverage at the state level.

- **Claire Morton, '24 (Mathematical and Computational Science); Physicians, Scientists, and Engineers for Healthy Energy, Oakland, CA.** Claire interned at Physicians, Scientists, and Engineers for Healthy Energy (PSE), a nonprofit organization that researches energy's impacts on health and the environment. Based on PSE's existing statewide optimization models to suggest locations of resilience hubs in California, she created two local models based on feedback from community partners.
- **Ella Varney, '23 (Anthropology); YouthBuild Philly Charter School, Philadelphia, PA.** Ella interned at YouthBuild Philly Charter School, a program that combines accelerated academics and workforce development training for 18-21 year olds who were pushed out of the Philadelphia public school system and are reclaiming their education. She worked with the program operations department to collect and analyze data about student experiences to evaluate the school's pedagogical practices and policies, and inform their programming initiatives going forward.
- **Sophadevy Weir, '25 (Undeclared); Two Pony Gardens, Long Lake, MN.** Devy interned at Two Pony Gardens, a small, organic, diversified farm invested in the newest soil preserving farming techniques and community education. On the four woman farm, Devy's chief project was putting together and planning CSA boxes filled with produce from the farm and also being a core counselor of an educational farm camp that over the course of six weeks taught 72 children about our connection to the Earth.

Roland Longevity Fellowship

Through the Roland Longevity Fellowship, Stanford students provide service to older adults and/or conduct research on issues of aging in order to enhance the quality of life and participation in the community for this population.

- **Lexi Linker, '23 (Biology); The Center for Disability & Elder Law, Chicago, IL.** Lexi interned at the Center for Disability & Elder Law, a nonprofit organization that provides pro bono legal services to low income elders and people with disabilities in the Chicagoland area. She assisted directly on client matters, as well as working on a research project on fee waivers available in various Illinois counties.
- **Alina Pollner, '24 (Human Biology); University of California San Diego Division of Geriatrics, Gerontology and Palliative Care, San Diego, CA.** Alina worked with UCSD's Division of Geriatrics, Gerontology and Palliative Care this summer, splitting her time between in person and virtual work. She specifically volunteered with Group Visits for Advance Care Planning, helping facilitate conversations with older adults about what matters most to them at the end of their life.

Sand Hill Philanthropy Fellows

Through Philanthropy Fellowships, Stanford students can work full-time for Bay Area grantmaking foundations.

- **Cecilia Ergueta, '24 (Urban Studies); Fast Forward, San Francisco, CA.** Cecilia interned at Fast Forward, a San Francisco-based accelerator that helps tech nonprofits scale their impact. Supporting the marketing team, she expanded the tech nonprofit and partner ecosystem, streamlined essential databases, and drafted original content for the Fast Forward blog.
- **Taylor Hall, '25 (African & African American Studies); Meadow Fund, Oakland, CA.** Taylor interned at the Meadow Fund, a philanthropic organization based in the Silicon Valley. She worked to formulate criteria and a docket for the organization's spending in areas of education, economic, and land justice within marginalized communities.
- **Kenny Hua, '24 (Undeclared); Walter and Elise Haas Fund, San Francisco, CA.** Kenny served as a fellow at the Walter & Elise Haas Fund, a reputable philanthropy fund in San Francisco. He aided grant-making in climate justice by visualizing climate and health data, and through partnering with marginalized communities in San Francisco.
- **Sameeha Khan, '25 (Undeclared); Walter and Elise Haas Fund, San Francisco, CA.** Sameeha was a Climate Justice, Racial Justice, and Disaster Preparedness fellow at the Walter and Elise Haas Philanthropy Fund, dedicated to building more equitable communities in the Bay Area. She facilitated a partnership with the Bayview-Hunters Point neighborhood in San Francisco and helped dedicate \$900,000 to climate and racial justice initiatives with the nonprofit Resilient Bayview. Sameeha informed Fund partnerships and practices to focus on community needs and justice when working with historically underserved populations.
- **Faith Koh, '22 (International Relations); Meadow Fund, Remote.** Faith interned with Meadow Fund, a private fund whose aim is to advance gender, racial, criminal, and economic justice in the US. She helped Meadow Fund develop a grant making strategy and specialized in gender justice issues. She researched gender justice philanthropy and found gender justice organizations, especially foundations, best positioned to support women and girls.
- **Saimary Velazquez Carrasquillo, '25 (Undeclared); Womens Foundation California, Remote.** Saimary interned at the Womens Foundation of California, a nonprofit organization that funds local and national groups working to improve the lives of people of marginalized backgrounds. She researched new organizations for the foundation to fund, researched and documented the demographics of current and past organizations that have been funded, and wrote a piece for the WFC blog on the intersection of trans rights and reproductive justice.
- **Divya Vetticaden, '25 (Undeclared); Autodesk Foundation, San Francisco, CA.** Divya interned at Autodesk Foundation, the philanthropic hand of Autodesk Inc, that provides funding to non-profits and sustainable startups. She conducted DEI research, created a Impact Investing Workshop for Autodesk Employees, evaluated new offerings in the investment portfolio toolkit such as stability funding, and assisted with data collection and analysis to inform decisions regarding internationalization of the portfolio.
- **Tatian White, '23 (International Relations); The San Francisco Foundation, San Francisco, CA.** Tatiana interned with the San Francisco foundation where she assisted them with their Women of Color Women of Power program and learned more about community foundations.

Schneider Fellows

The Schneider Fellows program provides Stanford students with opportunities to work at leading U.S. non-governmental organizations (NGOs) in the sustainable energy field.

- **Ayaan Asthana, '23 (Economics); Third Derivative RMI (Rocky Mountain Institute), New York City, NY.** Ayaan interned at Third Derivative, a climate technology accelerator that is part of the nonprofit RMI. He developed an innovation brief on circular economy and waste management startups, while also helping Third Derivative with internal strategy work around raising money from philanthropies and focused cohorts.
- **Eddie Dilworth, '23 (Public Policy); Natural Resources Defense Council (NRDC), San Francisco, CA.** Eddie worked as a Schneider Fellow at the Natural Resources Defense Council, a nonprofit environmental advocacy group. He built a data-hub for publicly available energy data.
- **Tanvi Dutta Gupta, '23 (Biology); Natural Resources Defense Council, Remote.** Tanvi worked at NRDC's International team with their India office, working on climate policy issues. She helped write the annual brief on India's climate change progress and helped organize a roundtable on climate-friendly cooling.
- **Mishika Govil, '25 (Undeclared); Environmental Defense Fund, Remote.** Mishika was a Vehicle Electrification Policy Intern at Environmental Defense Fund focusing on medium and heavy-duty vehicle electrification. She worked on research and advocacy for electrifying school buses in Florida, supported the beginning of a policy gap study through analysis of vehicle market and emissions data, and crafted memos on propane buses and autonomous vehicle trends to inform future EDF research and initiatives.
- **Charlie Hoffs, '22 (Chemical Engineering); Union of Concerned Scientists, Cambridge, MA.** Charlie was a Summer Schneider Fellow with the Union of Concerned Scientists in Cambridge, Massachusetts. She worked with UCS's Climate and Energy Team to research and write about the life cycle and supply chains of renewable energy technologies.
- **Shuvi Jha, '24 (Human Biology and Computer Science); Environmental Defense Fund, San Francisco, CA.** Shuvi interned at the Environmental Defense Fund, a nonprofit environmental advocacy group that uses science, economics, and law to conduct work on issues like global warming, ecosystem restoration, oceans, and human health. She created communication materials using various forms of media to engage fisher communities in Belize as the country implements its sustainable fishing framework.
- **Tala Parker, '22 (Comparative Studies in Race and Ethnicity); Natural Resources Defense Council, Transportation Team, San Francisco, CA.** Tala was a fellow at the NRDC (Natural Resources Defense Council), a non-profit working on environmental issues with a large environmental justice focus. She completed a research project investigating transportation issues that tribes across the United States experience and created key suggestions for addressing critical barriers, as well as several recommendations for how the NRDC can become a better advocate for Indigenous issues generally.

- **Sebastian Poler, '23 (Geophysics); Union of Concerned Scientists, Cambridge, MA.** Paco worked at the Union of Concerned Scientists, a nonprofit advocating for science-informed public policy. He helped organize a convening of grassroots EJ activists to discuss policy and principles for an equitable energy grid, and he supported some of UCS' advocacy partners by assembling localized climate impact fact sheets.
- **Nikita Salunke, '24 (Economics); Natural Resources Defense Council, Washington D.C.** Nikita was a Schneider Fellow at the Natural Resources Defense Council, an international environmental advocacy group. She identified the key challenges to renewable energy siting and developed a written report and an interactive GIS Dashboard.
- **Haley Stafford, '24 (Management Science and Engineering); National Resources Defense Council, Remote.** Haley interned at the National Resources Defense Council, a nonprofit environmental advocacy group dedicated to preserving the natural world and protecting all of its inhabitants. She joined the NRDC's Energy Efficiency For All initiative, which aims to make energy-efficient affordable housing a reality nationwide, and wrote a policy memo on the critical role that shared-equity homeownership will play in tackling the U.S. housing shortage.
- **Vrinda Suresh, '22 (Biology); Environmental Defense Fund, San Francisco, CA/Remote.** Vrinda interned with Environmental Defense Fund's Fisheries and Oceans science team. She conducted research on marine resource governance in the Central Arctic Ocean and in the mesopelagic zone of the ocean to inform EDF's engagement on issues in these areas.
- **Ritwik Tati, '25 (Undeclared); National Audubon Society, Washington D.C.** Ritwik interned at the National Audubon Society, an environmental advocacy organization focused on protecting birds and America's wildlife. He worked on federal policy messaging related to the Recovering America's Wildlife Act (RAWA) for both Audubon state chapters and the US Senate.

Stanford in Government Fellows and Stipend Recipients

The SIG Fellowships and Stipends Program provides undergraduates meaningful exposure to government and public policy through intensive summer internships.

Stanford in Government Fellows

- **Josephine Amoo, '25 (Political Science); The Bail Project, Remote.** Josie interned at The Bail Project, a nonprofit organization that provides bail and legal assistance for incarcerated individuals who can't pay on their own. She conducted power-mapping exercises and worked with organizers and activists to tackle bail policies nationwide.
- **Isabelle Anzabi, '24 (Political Science); World Bank, Washington, D.C.** Isabelle interned at the World Bank in their Development Impact Evaluation department (DIME). She worked on a meta-analysis project that was part of a partnership with the World Food Programme to examine the impact evaluation evidence of humanitarian assistance interventions and to further their gender equality agenda.

- **Alexandra Chau, '23 (International Relations); World Bank - Bureaucracy Lab, Washington, D.C.** Alex interned at the Bureaucracy Lab, a team within the World Bank that promotes the use of evidence and technology for civil service reform. She worked on a Handbook of Government Analytics that provides approaches to measure and reform public administration.
- **Ingrid Chen, '25 (Undeclared); Santa Clara County Office of Reentry Services, San Jose, CA.** Ingrid interned at Santa Clara County's Office of Reentry Services, which provides wrap-around services and support for justice-involved individuals. She planned a roundtable discussion panel that brought together national leaders and experts to spread awareness about sobering centers and created a survey for in-custody individuals at Elmwood Correctional Facility to inform future programs at the Reentry Resource Center.
- **Joey Chen, '25 (Political Science); San Jose PRNS Department (Parks Division), San Jose, CA.** Joey interned at the San Jose City Hall as the Park Equity Intern for the PRNS Department. In her work, she helped establish a Racial Equity Analysis Resource Guide and a replicable framework that she used to analyze the programming for San Jose Community Gardens and Citywide Sports.
- **Gabrielle Crooks, '23 (International Relations); UNHCR Innovation Service, Geneva, Switzerland.** Gabby interned at UNHCR Innovation Service in Geneva, Switzerland. This branch of the UN's refugee agency works to design novel approaches to humanitarian action. Over the summer, Gabby worked on supporting the launch of two of their funds: the Innovation, Environment, and Resilience Fund and the Refugee-Led Innovation Fund. She worked with the Innovation Service team to support country operations and refugee-led organizations through fund application and selection processes.
- **Amira Dehmani, '24 (Undeclared); Library of Congress Professional Learning and Outreach Initiatives Office, Washington D.C.** Amira interned at the Library of Congress PLOI office, connecting primary sources in the Liljenquist Collection to substantive materials for teachers to use in their classrooms. She created guides for educators on topics related to the Civil War: education in enslaved communities, Native involvements in the war, soldier mental illness, POW camps, mail evolution, etc.
- **Nicolas Garcia, '23 (Economics); Department of Health and Human Services – Office of the Assistant Secretary for Planning and Evaluation (ASPE), Washington, D.C.** Nicolas interned at the Department of Health and Human Services in the Office of the Assistant Secretary for Planning and Evaluation (ASPE) which focuses on health policy development. During his time Nicolas researched the association between Telehealth use and unmet mental health need for people with disabilities to encourage the development of new quality metrics for this population.
- **Kyla Guru, '24 (Computer Science); Cybersecurity and Infrastructure Security Agency, Arlington, VA.** Kyla was a special projects intern at CISA, where she worked across teams to participate in projects related to cybersecurity, geopolitical strategy, and infrastructure security. Projects included publishing a report on the state of 2022 Midterm Election Security, conducting data analysis using Python to find vulnerabilities with state, local, tribal, and territorial governments, and traveling to Houston to participate in a penetration testing assessment of an oil and gas company.

- **Evian Jiang, '24 (Undeclared); International Crisis Group, New York City, NY.** Evian interned at International Crisis Group, a think tank that works to prevent wars and shape policies that will build a more peaceful world. She worked for the Future of Conflict division, studying how climate change, economics, technology, and conflict will interact globally through conducting research and writing memorandums for policymakers.
- **Layal Kazerooni, '25 (Economics); Landesa, Remote.** Layal interned at Landesa Rural Development Institute, a nonprofit organization that works with governments and civil societies to strengthen land rights for individuals in extreme poverty. Layal's focus over the course of her internship was women's land rights in South East Asia, primarily in Cambodia, and she conducted extensive research into several Cambodian actors, policies and legislation and assessed their impacts on land right accessibility to women. Layal also supported Landesa's initiation of their climate focused projects in Cambodia.
- **Cameron Lange, '24 (Political Science); Governor's Office, Sacramento/Remote.** Cameron interned at Governor Newsom's Office in the Legislative Affairs Unit. She attended legislative committee hearings, coordinated the transmittal of fiscal information from the Department of Finance, and briefed legislative officials on an elections bill of personal interest.
- **Ethan Lee, '23 (Political Science); Cybersecurity and Infrastructure Security Agency, Arlington, VA.** Ethan interned at the Cybersecurity and Infrastructure Security Agency (CISA)'s International Affairs subdivision, which engages U.S. allies and partners around the world to help reduce risk to cyber and physical infrastructure. He supported the subdivision's Country Prioritization Strategy, contributed to drafts of the forthcoming National Cybersecurity Strategy, and assisted in a variety of engagement meetings and events with foreign representatives.
- **Jessica Lee, '24 (Political Science); International Crisis Group, New York, NY.** Jessica interned at International Crisis Group, a think tank dedicated to violence and conflict prevention worldwide. She specifically worked under the Latin America program under which she contributed to reports on topics ranging from the Venezuelan migration crisis and gang violence in Haiti.
- **Rachel Lit, '25 (Undeclared); National Center for Learning Disabilities (NCLD), Washington, D.C.** Rachel spent the summer with the National Center for Learning Disabilities (NCLD), a nonprofit organization that advocates for disability justice through education policy and research to improve the lives of students with learning and attention issues. In addition to lobbying on the hill, attending congressional hearings, and publishing press releases on education-related policy news, Rachel constructed a research report looking into environmental pollutants and their role as risk factors in developing learning disabilities.
- **Lisa Lu, '24 (Political Science); Harris County Judge Office, Houston, TX.** Lisa interned at Harris County Judge Lina Hidalgo's Office.
